

The following papers by international authors have been peer-reviewed and published online during the conference week:

Category 1: Social aspects of climate change					
Category 2: Economic aspects of climate change					
Category 3: Political aspects of climate change					
Category 4: Projects which focus on the social, economic and political aspects of climate change, as well as educational and awareness-raising initiatives					
Author Lastname	Surname	Title	Country	Title of published paper	Category
A.Al-Gamal	Samir	Ph.D.,Prof.	Tunisia	An Assessment of Climate-Induced Conflict Risks over Shared Waters Resources in Africa	1
Abughris	Engg OtmanAhmed		Libya	Linkages between climate change and desert development	1
Adejuwon	James O.		Nigeria	Path to the Future for Climate Change Education: University Project Approach	4
Afionis	Stavros	Ph.D.	Greece	The European Union on the road to Copenhagen: The quest for realism in climate change politics	3
Aguilar Salas	Tirza J.		Bolivia	The Climate Change Effects on the Agricultural Sector of Bolivia	2
Ahmadi	Leila		Iran	Estimating the amount of methane and carbon dioxide releases from landfills using the Land gem method: a case study in Tehran	4
Ahmadi	Amir		Iran	Estimating the amount of methane and carbon dioxide releases from landfills using the Land gem method: a case study in Tehran	4
Ahmadi	Asghar		Iran	Estimating the amount of methane and carbon dioxide releases from landfills using the Land gem method: a case study in Tehran	4
Al-Awais	Saeed Ahmed	Dr.	Saudi Arabia	Urban forestry: A natural approach to global warming crisis	3
Al-Zahrani	Khodran H.	Prof.	Saudi Arabia	Changing water consumption patterns and behaviours as means of water demand management in the Kingdom of Saudi Arabia	1
Ayotunde	Titilayo		Nigeria	Herb Sellers' knowledge on Climate Change and Attitudes towards Sustainable Herbal Harvesting in Nigeria	1
Baer	McGregor		USA	What we need from the Copenhagen Climate Summit – and are unlikely to get!	3
Banerji	Gargi		India	Climate Change and Himalayan Cold Deserts: Mapping vulnerability and threat to ecology and indigenous livelihoods	4
Baronti	S.		Italy	Climate is changing, can we? A scientific exhibition in schools to understand climate change and raise awareness on sustainability good practices	4
Baronti	S.		Italy	Climate research and technology meet education: The field experience of a group of high school students to increase awareness on climate change	4
Basu	Sejuti		India	Climate Change and Himalayan Cold Deserts: Mapping vulnerability and threat to ecology and indigenous livelihoods	4
Baumhauer	Roland	Prof. Dr.	Germany	Critical Parameters for mass-cargo affine industries due to Climate Change in Germany - Impacts of low water events on industry and possible adaptation measures	2
Bauriedl	Sybille	Dr.	Germany	Adaptive capacities of European city regions in climate change. On the importance of governance innovations for regional climate policies	1
Beck	Ernst-Georg	Dipl. Biol.	Luxembourg	Accurate estimation of CO ₂ background level from near ground measurements at non-mixed environments	4
Bernaerts	Arnd		Germany	The Circumstances of the Arctic Warming in the early 20 th Century	2
Bernardini	Francesca		The Netherlands	Adaptation to climate change; challenges for transboundary water management	4
Bindra	S.P.		Libya	Linkages between climate change and desert development	1
Blumberga	Andra		Latvia	Analysis of Green Investment Scheme for Energy Efficiency Measures in Latvia	2
Blumberga	Dagnija		Latvia	Analysis of Green Investment Scheme for Energy Efficiency Measures in Latvia	2
Brandt	Nils		Sweden	An analysis of Chinese policy instruments for climate change mitigation	3
Brandt	Nils		Sweden	Governance of Large-Scale Environmental Problems – the case of climate change	3

The following papers by international authors have been peer-reviewed and published online during the conference week:

Brandt	Nils	Prof.	Sweden	Identifying problems when following up the effects of local climate change mitigation projects and programmes – experiences from the city of Stockholm: Manuscript preparation for GCGW-09 papers	4
Briguglio	Lino Pascal		Malta	Defining and assessing the risk of a territory being harmed by climate change	1
Bruneniece	Ieva		Latvia	Normative principles for adaptation to climate change policy design and governance	3
Buntsma	Joost J.		The Netherlands	Adaptation to climate change; challenges for transboundary water management	4
Burandt	Simon		Germany	Universities as Learning Organizations for Sustainability? The Task of Climate Protection	1
Candano	Catherine		Singapore	ITU: Moving Towards a Global Policy Framework on ICTs and Climate Change	3
Catenazzo	Giuseppe		Switzerland	Testing the Impact of Sustainable Development Policies in Canton Geneva (Practical experiences)	4
Chang	Elizabeth		Australia	A multi-system climate change adaptation approach for water sustainability in regional Australia	4
Chaudhary	Nitin		India	The Potential of Major Hydro & Wind Energy Projects for seeking Carbon Credits under the Clean Development Mechanism & Voluntary Markets	2
Chirinda	Ngonidzashe		Denmark	Raising adaptive capacity to climate change into agricultural policy in Southern Africa	2
Chowdhury	Naved Ahmed		Belgium	Financing Adaptation – For whom, By Whom and How	2
Comba	Danilo		Italy	The IPY Legacy: A Better Awareness of the International Cooperation as Basis for an Increasing Arctic Navigation	4
Cots	Francesc		Spain	Opportunities and constraints for climate adaptation in regional water and land use planning	4
Cranston	G.R.		UK	Population and economic growth assessing the principal determinants of carbon emissions	1
Cruz	Rex Victor O.		Philippines	Social and Institutional Dimensions of Climate Change Adaptation in the Philippines	4
da Costa Ferreira	Leila	Prof Dr	Brazil	The Research on Human Dimensions of Global Environmental Change in Latin America: looking back, moving forward	1
Dai	Xingang		China	Opportunities and constraints for climate adaptation in regional water and land use planning	4
Delina	Laurence L.		New Zealand	Mitigating climate change via clean energy financing: an assessment of Asian Development Bank's mitigation efforts in Southeast Asia	1
Dillon	Tharam		Australia	A multi-system climate change adaptation approach for water sustainability in regional Australia	4
Doppelt	Bob		USA	Preparing Communities for the Impacts of Climate Change in Oregon, USA	4
Dupont	Sam		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Eitzinger	Anton		Austria	Predicted impact of climate change on coffee-supply chains	4
Ekardt	Felix		Germany	Managing the ecological and social ambivalences of bioenergy – sustainability criteria versus extended carbon markets	3
El Magerbi	Hadi M.	Dr.	Libya	Linkages between climate change and desert development	1
el Ouahrani	Abdeltif		Morocco	Anthropogenic CO ₂ Emission from Fossil Fuel Combustion in Mediterranean Regions	3
Elazegui	Dulce D.		Philippines	Social and Institutional Dimensions of Climate Change Adaptation in the Philippines	4

The following papers by international authors have been peer-reviewed and published online during the conference week:

Epalle	Alexandre		Switzerland	Testing the Impact of Sustainable Development Policies in Canton Geneva (Practical experiences)	4
Epel	David		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Ermine	Willie		Canada	Nikan oti (the future): Adaptation and Adaptive Capacity in two First Nations Communities	1
Fauville	Géraldine		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Flachner	Zsuzsanna		Hungary	Opportunities and constraints for climate adaptation in regional water and land use planning	4
Flamos	Alexandros		The Netherlands	Integrating environmental, socio – political, economic and technological dimensions for the assessment of climate policy instruments	4
Ford	Judith		The Netherlands	Worldviews and Climate Change: Harnessing Universal Motivators To Enable An Effective Response	1
Fragnière	Emmanuel		Switzerland	Testing the Impact of Sustainable Development Policies in Canton Geneva (Practical experiences)	4
Ganapin	Delfin	Dr.	USA	“Pace of Change” – Climate Change and the Empowerment of local communities	4
Geoff	Geoff		France	All-disciplines collaboration for global cooling, climate resilience and prevention of global famine 2020-2050	2
Gil-Saura	Irene		Spain	Good environmental practices for hospitality and tourism: The use of Information and Communication Technologies to pursue sustainability	4
Grafakos	Stelios		The Netherlands	Integrating environmental, socio – political, economic and technological dimensions for the assessment of climate policy instruments	4
Grassi	R.		Italy	Climate research and technology meet education: The field experience of a group of high school students to increase awareness on climate change	4
Grasso	V.		Italy	Climate is changing, can we? A scientific exhibition in schools to understand climate change and raise awareness on sustainability good practices	4
Grasso	V.		Italy	Climate research and technology meet education: The field experience of a group of high school students to increase awareness on climate change	4
Gropengießer	Harald		Germany	CO ₂ causes a hole in the atmosphere - Using laypeople’s conceptions as a starting point to communicate climate change	4
Guarnieri	F.		Italy	Climate is changing, can we? A scientific exhibition in schools to understand climate change and raise awareness on sustainability good practices	4
Gupta	Himani		India	Carbon Credit Currency for Future	2
Hadarits	Monica		Canada	Climate change and economic uncertainty in the wine sector: A case study of the Maule Region, Chile	2
Haesler	Alexis		Switzerland	PANGAEA Expedition: Explore the world, learn and act (Practical experiences)	4
Haghyghy Khomami	Maryam		Iran	An investigation of the forest stand changes in lowland region of Guilan province using remote sensing data	4
Haker	Konstantin	M. Sc.	Germany	RENET “network in renewable energies between Turkish and european universities”	4
Hakim	Salah		Sudan	The Role of Climate Change in Darfur Crisis	4
Hamilton	Roger		USA	Preparing Communities for the Impacts of Climate Change in Oregon, USA	4
Hammond	G.P.		UK	Population and economic growth assessing the principal determinants of carbon emissions	
Havaligi	Neeraja		USA	Role of Agrobiodiversity and Indigenous Knowledge Conservation in Food and Global Health Security in the Climate Change Scenario	1

The following papers by international authors have been peer-reviewed and published online during the conference week:

Havaligi	Neeraja		USA	Contribution of Urban Agriculture to Food Security, Biodiversity Conservation and Reducing Agricultural C Foot Print	4
Haws	Julie		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Henderson-Sellers	A		Australia	Are Climate Models Improving or Does IPCC-type Averaging Hide Lousy Schemes?	1
Henderson-Sellers	Ann		Australia	Reflexive mitigation of the Earth's carbon economy: A viable strategy for insurance systems	1
Henderson-Sellers	Ann		Australia	An assessment of climate change, carbon prices & insurance systems	2
Henderson-Sellers	A.	Prof.	Australia	Changing Climate Change Communication	4
Henderson-Sellers	Ann		Australia	Prioritising climatic change adaptation investment at local government levels	4
Hill	Margot		Switzerland	Converging Threats: Assessing socio-economic and climate impacts on water governance	3
Hirschi	Christian		Switzerland	Changing Structural Configurations on the Way to Copenhagen	3
Hodin	Jason		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Hoffmann	Dirk	MSc	Bolivia	Climate Change and Protected Areas in Bolivia	3
Hossain	A. M. M. Maruf		Republic of Korea	A brief account of manifestations of climate change impacts affecting socio-economy in Bangladesh	2
Hossain	Zakir	Md.	Belgium	Financing Adaptation – For whom, By Whom and How	2
Huq	Nazmul		Belgium	Financing Adaptation – For whom, By Whom and How	2
Hussain	Omar		Australia	A multi-system climate change adaptation approach for water sustainability in regional Australia	4
Hussain	Ijaz		Austria	Homogeneous climate regions in pakistan	4
Hussein	Muawya Ahmed		Sultanate of Oman	Climate Change Impacts on East Africa	4
Jarvis	Andy		UK	Predicted impact of climate change on coffee-supply chains	4
Johansson	Stefan		Sweden	Identifying problems when following up the effects of local climate change mitigation projects and programmes – experiences from the city of Stockholm: Manuscript preparation for GCGW-09 papers	4
Juhola	Sirkku		Finland	Science-policy linkages in climate change adaptation: a comparative study of multi-level governance in Finland and Italy	3
Klavin	Maris		Latvia	Normative principles for adaptation to climate change policy design and governance	3
Klöckner	Christian A.	Dr.	Norway	Towards a Psychology of Climate Change	1
Koepfel	Sonja		The Netherlands	Adaptation to climate change; challenges for transboundary water management	4
KÖKTÜRK	Gülden			Sustainability in the city scale to fight global warming	1
Krammer	Philip	Dipl.-Ing.	Germany	Mitigating the climate impact of aviation – What does hydrogen hold in prospect?	4
Krishna	Vinita		India	Indigenous Communities and Climate Change Policy, An Inclusive Approach	1
Kuchta	Kerstin	Prof. Dr.-In	Germany	RENET “network in renewable energies between Turkish and european universities”	4
Laderach	Peter		Switzerland	Predicted impact of climate change on coffee-supply chains	4
Lamba	Shubhangi		India	The Potential of Major Hydro & Wind Energy Projects for seeking Carbon Credits under the Clean Development Mechanism & Voluntary Markets	2
Lanini	M.		Italy	Applied Research on greenhouse effect and climate change at school	4
Leal Filho	Walter	Prof.	Germany	Climate Change and Governance: state of affairs and actions needed	3
Leal Filho	Walter	Prof.	Germany	The contribution of education towards meeting the challenges of climate change	4

The following papers by international authors have been peer-reviewed and published online during the conference week:

Leemans	Rik		The Netherlands	Opportunities and constraints for climate adaptation in regional water and land use planning	4
Lordemann	Javier Aliaga		Bolivia	The Climate Change Effects on the Agricultural Sector of Bolivia	2
Lüdeke-Freund	Florian		Germany	Universities as Learning Organizations for Sustainability? The Task of Climate Protection	1
Lundy	Mark		USA	Predicted impact of climate change on coffee-supply chains	4
Magno	R.		Italy	Climate is changing, can we? A scientific exhibition in schools to understand climate change and raise awareness on sustainability good practices	4
Magno	R.		Italy	Climate research and technology meet education: The field experience of a group of high school students to increase awareness on climate change	4
Mannke	Franziska	B.A. int., BSc. Int., MBA		Reducing vulnerability to climate change and global market developments	4
Manolas	Evangelos I.		Greek	The increase of global temperature as a result of the greenhouse effect: Assessing the reasons of disagreement among scientists	1
Manolas	Evangelos		Greece	The contribution of education towards meeting the challenges of climate change	4
Marandola	D.		Italy	Applied Research on greenhouse effect and climate change at school	4
Martins	Rafael D'Almeida		Brazil	The Research on Human Dimensions of Global Environmental Change in Latin America: looking back, moving forward	1
Maskani Jifroudi	Hamid Reza		Iran	An investigation of the forest stand changes in lowland region of Guilan province using remote sensing data	4
Massen	Francis	Dr.	Luxembourg	Accurate estimation of CO ₂ background level from near ground measurements at non-mixed environments	4
Massetti	L.		Italy	Applied Research on greenhouse effect and climate change at school	4
Mathew	Supriya		Australia	Prioritising climatic change adaptation investment at local government levels	4
McEvoy	Darryn		the Netherlands	Opportunities and constraints for climate adaptation in regional water and land use planning	4
McGregor	Ian		Australia	What we need from the Copenhagen Climate Summit – and are unlikely to get!	3
McGuffie	Kendal	Dr.	Australia	Are Climate Models Improving or Does IPCC-type Averaging Hide Lousy Schemes?	1
Melvin	Agunbiade Ojo		Nigeria	Herb Sellers' knowledge on Climate Change and Attitudes towards Sustainable Herbal Harvesting in Nigeria	1
Meraji	Ali		Iran	An investigation of the forest stand changes in lowland region of Guilan province using remote sensing data	4
Merzouki	Abderrahmane		Morocco	Anthropogenic CO ₂ Emission from Fossil Fuel Combustion in Mediterranean Regions	3
Miguel	António F.		Portugal	Global warming and climate change: Contribution to the study of the European situation before and after 1998	3
Mikalauskiene	Asta	Dr.	Lithuania	Assessment of climate change mitigation policies and measures	3
Miller	Pam		Sweden	Virtual ocean acidification laboratory as an efficient educational tool to address climate change issues	4
Moh'd Ramadan	Abdel Ghani		Libya	Linkages between climate change and desert development	1
Moliner-Velázquez	Beatriz		Spain	Good environmental practices for hospitality and tourism: The use of Information and Communication Technologies to pursue sustainability	4
Mumcu Kucuker	Derya		Turkey	Incorporating water production into forest management planning: A case study in Yalnizcam planning unit	4
Mustapha	Opatola		Nigeria	Herb Sellers' knowledge on Climate Change and Attitudes towards Sustainable Herbal Harvesting in Nigeria	1
Neufeldt	Henry		UK	Opportunities and constraints for climate adaptation in regional water and land use planning	4

The following papers by international authors have been peer-reviewed and published online during the conference week:

Nhemachena	Charles	Dr.	South Africa	Raising adaptive capacity to climate change into agricultural policy in Southern Africa	2
Niebert	Kai		Germany	CO ₂ causes a hole in the atmosphere - Using laypeople's conceptions as a starting point to communicate climate change	4
Nursey-Bray	Melissa		Australia	The role of education and training in achieving social and political outcomes for climate change adaptation in Australia	4
Oetting	Imke	Dr rer pol	Bolivia	Climate Change and Protected Areas in Bolivia	3
Oikonomou	Vlasis		The Netherlands	Integrating environmental, socio – political, economic and technological dimensions for the assessment of climate policy instruments	4
Ologeh	Idowu		Nigeria	Path to the Future for Climate Change Education: University Project Approach	4
Oluwafemi Oluwadare	Abiodun	Dr.	Nigeria	Climate change policies and issues: A tool for increased wood production in developing countries	3
Ormeçi	C.		USA/ Türkiye	Modelling land cover change impact on the summer climate of the Marmara region, Turkey	2
Osofsky	Hari M.		USA	The Future of Climate Change Litigation Complexities of Science, Scale, and International Lawmaking	3
Pace	Paul		Malta	The contribution of education towards meeting the challenges of climate change	4
Pant	Pallavi		India	Carbon, Conservation, Communities under Sustainability (C3S) paradigm for forests	4
Pantazis	Vasileios E.		Greece	The increase of global temperature as a result of the greenhouse effect: Assessing the reasons of disagreement among scientists	1
Park	Kihong		South Korea	A brief account of manifestations of climate change impacts affecting socio-economy in Bangladesh	2
Peñalba	Linda M.	Dr.	Philippines	Social and Institutional Dimensions of Climate Change Adaptation in the Philippines	4
Perdomo	Antuaned		Australia	A multi-system climate change adaptation approach for water sustainability in regional Australia	4
Perez Portilla	Emiliano		Portugal	Predicted impact of climate change on coffee-supply chains	4
Phelan	Liam		Australia	Reflexive mitigation of the Earth's carbon economy: A viable strategy for insurance systems	1
Phelan	Liam		Australia	An assessment of climate change, carbon prices & insurance systems	2
Piana	Valentino		Italy	Exploring economic and political drivers for the introduction of innovative mitigation policies	3
Pilz	Juergen		Austria	Homogeneous climate regions in pakistan	4
Pittman	Jeremy		Canada	Nikan oti (the future): Adaptation and Adaptive Capacity in two First Nations Communities	1
Propastin	Pavel		Germany	Impact of climate change on locust habitats in the Balkhash Lake drainage basin, Kazakhstan: application of remote sensing techniques	1
Propastin	Pavel		Germany	Release of carbon dioxide by terrestrial ecosystems over Indonesia during the 1997-98 ENSO warm event	2
Pulhin	Juan M.		Philippines	Social and Institutional Dimensions of Climate Change Adaptation in the Philippines	4
Rahman	M. Hasibur		Republic of Korea	A brief account of manifestations of climate change impacts affecting socio-economy in Bangladesh	2
Ramirez	Julian			Predicted impact of climate change on coffee-supply chains	4
Rappaccioli-Navas	Vicente			How to achieve global scale climate change mitigation?: an integrative global policy framework beyond Kyoto	3

The following papers by international authors have been peer-reviewed and published online during the conference week:

Rath	Kathrin	Dipl.-Geogr.	Germany / UK	Reducing vulnerability to climate change and global market developments	4
Robock	A.		USA/ Türkiye	Modelling land cover change impact on the summer climate of the Marmara region, Turkey	2
Roche Kelly	Claire		Belgium	Climate Policy Integration in the EU	3
Rohracher	Harald		Austria	Climate change and regional governance – Towards robust procedures of negotiation and planning	3
Rosa	Marika		Latvia	Analysis of Green Investment Scheme for Energy Efficiency Measures in Latvia	2
Rothstein	Benno	Prof. Dr.	Germany	Critical Parameters for mass-cargo affine industries due to Climate Change in Germany - Impacts of low water events on industry and possible adaptation measures	2
Routray	Jayant K.	Prof. Dr.	Thailand	In-situ Adaptation against Sea level rise in Bangladesh: Does awareness matter?	1
Ruiz-Molina	Maria-Eugenia		Spain	Good environmental practices for hospitality and tourism: The use of Information and Communication Technologies to pursue sustainability	4
Russill	Chris		Canada	Temporal Metaphor in Abrupt Climate Change Communication: An Initial Effort at Clarification	1
Saleh	Ibrahim Mohammed		Libya	Linkages between climate change and desert development	1
Sanni	Maruf		Nigeria	Path to the Future for Climate Change Education: University Project Approach	4
Sarkar	A.N.	Dr.		Global climate change, emissions trading and sustainable energy development	3
Saroar	Mustafa	Md.	Thailand	In-situ Adaptation against Sea level rise in Bangladesh: Does awareness matter?	1
Schepp	Kathleen		Germany	Predicted impact of climate change on coffee-supply chains	4
Schiele	Simone		Germany	The European Union and Quantified Emission Limitation and Reduction Commitments under the Kyoto Protocol	3
Scholten	Anja		Germany	Critical Parameters for mass-cargo affine industries due to Climate Change in Germany - Impacts of low water events on industry and possible adaptation measures	2
Scholz	Dieter	Prof. Dr.-Ing.	Germany	Mitigating the climate impact of aviation – What does hydrogen hold in prospect?	4
Schulz	Jeannette		Germany	GIS-based Flood Risk Management for Thermal Power Plants in Germany	2
Schwarze	Malte	Dipl.-Ing.	Germany	Mitigating the climate impact of aviation – What does hydrogen hold in prospect?	4
Seeckt	Kolja	Dipl.-Ing.	Germany	Mitigating the climate impact of aviation – What does hydrogen hold in prospect?	4
Sertel	E.		USA/ Türkiye	Modelling land cover change impact on the summer climate of the Marmara region, Turkey	2
Sharan	Anandi		India	Social economic and political aspects of climate change	4
